

**Legend**

**Topography**

- seasonal stream
- formation of evaporates

**Geomorphology & Geomorphometry**

- step: H: 0-1m, B: 1-5m
- halite
- clay
- loam
- silly loam

**Changes of geomorphic structures and processes**

- change of process - location accurate
- change of structure - location accurate
- gradational system contact

**Areas of geomorphic structures and processes**

- fluviat, recent flood plains and low terraces
- lacustrine / playa

**Shading (derived from slope [°])**

High: 90  
Low: 0
